1994

- Started production on animal feeds. The first batches were delivered under the brand name Meadow.
- Increased its annual production from 10,000 tonnes to 25,000 tonnes annually. This was the initial phase.

1998

- Acquired new shareholders' clients.
- Increased the production rate to 15 tonnes per hour. New maize and soyabean meal silos were therefore built and production doubled to reach 50,000 tonnes annually.

2003

- Completed the 3rd phase with the setting up of additional maize silos of 5,000 tonnes capacity. The factory was modernized and all the production processes were automated.
- Increased production to 65,000 tonnes annually.

2012

- Completed the 4th phase with the installation of a second line which has a production capacity of 20 tonnes per hour.
- Increased the storage capacity to 14,000 tonnes of raw materials and 500 tonnes of finished products.
- Installed a new weighbridge for its delivery lorries.

2014

- Celebrated its 20 years of existence.
- Created a subsidiary company in Seychelles, Meaders (Seychelles) Ltd, in October.

2015

- Carried out a rebranding exercise with a new logo and tagline with the following main objectives:
- To give the company a fresh corporate image aligned with its new brand strategy.
 - To reposition the company in the animal feeds' market.
 - To distinguish the company from its competitors.
 - To reinforce the company's relationship with its customers.

2017

- Completed the 5th phase with the setting up of additional storage space for maize & soyabean meal
